

FABWEAVE

Technical Data

Hiraoka Fabweave is a very durable PVC coated fabric suitable for use in a range of medium duty applications such as tarpalins, covers, sports and leisure equipment. It utilises a special spun yarn in the base cloth to give excellent flexibility and ease of handling. The matte finish combined with the texture surface provides an anti-slip surface which is desirable in many applications.

| | |
|----------------------------------|--|
| Base Fabric | Polyester – woven spun yarn |
| Coating | PVC |
| Weight (g/m²) | 530 |
| Thickness (mm) | 0.58 |
| Tensile Strength (N/50mm) | 2580 x 1830 |
| Elongation (%) | 23 x 34 |
| Tear Strength (N) | 105 x 94 |
| Roll Size (m) | 1.89, 2.03 x 50 |
| UV Stabilised | Yes |
| Colour | Yellow, Sky Blue, Steel Blue, White, Green, Olive Green |

The above results are typical averages taken from quality assurance testing. Product technical data are subject to change without notice. *for further details see separate warranty statement.
